

Fabricator – Oneida Air Systems

Oneida Air Systems currently has an opening for a Fabricator to join the production team and support our continued growth.

Company Summary

Oneida Air Systems, founded in 1993, is the market leader in the design and manufacturing of dust collection systems. Our hard work and innovation have produced the best dust collection systems and products which are made right here in Syracuse, NY, that improve the safety and health of the customer's current environment.

As a thriving and continually growing company, we are invested in our employees' success, and we look for talented people who want to grow with us. We have a very collaborative culture and desire individuals that are dedicated, innovative, visionary, detail oriented, upbeat, team players, and love challenges.

If the above characteristics align with your experience, background, and expectations of an employer, please apply to learn more about the current and future opportunities available to you at Oneida Air Systems.
